TONY MCJOHNSTON

DRAFT / REVIEW BEFORE PUBLISHING

Engineering Specialist | Software Development Student

Sulphur Springs, Texas | (903) 423-7698 | bmcjohnston@gmail.com
github.com/hellphoenix | linkedin.com/in/tony-mcj

PROFESSIONAL PROFILE

Engineering specialist with experience in protection and control systems, systematic troubleshooting, technical collaboration, and mentorship. Pursuing a B.S. in Computer Game Development; building software projects in C++, C#, Python, and Kotlin.

TECHNICAL SKILLS

Languages: C++, C#, Python, Kotlin, Java | Tools: Unity 6, Visual Studio, Git/GitHub, Android Studio
Concepts: Event-driven programming, 2D physics/collision, AI search/planning, debugging, testing

SELECTED SOFTWARE PROJECTS

Color-Key Maze | Unity / C# — Personal project · 2026

- Built and tested a playable top-down 2D maze with physics collisions, colored-key collection, barrier unlocking, and win/loss logic.

Automated Vertical Farm AI Simulator | Python — Academic project · 2026

- Developed a configurable 3D-grid autonomous-agent simulation of plant lifecycles and resource constraints; compared search and planning strategies.

Sparks and Stories | Android / Kotlin — Personal project · 2026

- Tested and debugged interactive card-deck features, Google Play Games sign-in, and in-app purchases on emulator and device.

PROFESSIONAL EXPERIENCE

P&C Engineering Specialist Sr. | Oncor Electric Delivery — 2021–Present

- Test and troubleshoot protection and control electronics supporting 60+ substations and switching stations; use methodical fault isolation and verification.
- Supported construction of 20+ substations and switching stations; mentored two engineering specialists in training.

P&C Technician Intern → Technician 1 → Technician 2 | Oncor — 2016–2021

Aviation Electronics Technician | U.S. Navy — 2006–2011

EDUCATION

Lamar University | B.S. Computer Game Development — Expected 2027

University of North Texas | B.S. Electrical Engineering Technology — 2016

PROFESSIONAL ACTIVITIES & CREDENTIALS

Activities: Mentored two protection and control specialists in training. | Certifications: Details to be confirmed.

Draft compiled from supplied 2026 resumes. Confirm graduation, certifications, activities, and contact details.
